

*Engage Giving Update Jan – Feb - **What does this mean?***

Praises

- The number of regular givers has increased in 2011 in response to our call for commitment to the Season of Growth. Specific numbers forthcoming.
- We have one-month operating expenses in reserves.
- We have adequate cash flow in checking to cover immediate expenses.
- To date we have received over \$600 through PayPal online.
- We've seen an increase in cash donations on Sundays since we started passing a basket last December.
- We've seen an increase in our giving over last year (2010) by **over 10%**.

Future Challenges

- Our giving is approximately \$2,200 short of budget, however our expenses are better than budget by the same amount, making us budget neutral through the first two months.
- Moving forward, we're challenged with increasing our average weekly giving by an **additional 14%**.
